I am pleased to announce to the Ladies of Grayling and vicinity that I will have my 7th semi-annual

Millinery Opening

Fri. and Sat. 15 & 16 March

We will have on display a nice lot of trimmed hats and show the Latest Millinery Creations. We cordially invite you to visit our store; it will give us pleasure to show our handsome line.

Mrs. J. E. Crowley.

Marlin

WHETHER you live in the city or country, you'll find no .22 calibre repeating rifle like the Marlin Model 1897. For the city man it's a perfect companion for the vacation or outing trip. It's light, takes down and packs in a small space. The ammunition is inexpensive. The gun can be used with .22 short for target, and is equally capable of handling .22 long or .22 long rifle cartridges without change of mechanism.

On the farm the rifle is a necessity. The short cartridge is sufficient for sparrows, squirrels and small game, and the long rifle makes the Marlin Model 97 a distinctive weapon for deer, foxes, hares, etc. up to 200 yards.

The "Marlin Book" of 128 pages, with handsome art cover, is a full of up-to-date information for all gunslayers and gives full description of all Marlin repeaters. It's yours for 10 cents postage paid.

The Marlin Firearms Co. New Haven, Conn.

Election Notice.

To the Electors of Crawford County:

Notice is hereby given to the qualified electors of Crawford County, that at the next regular Township Election to be held in the several townships in said county on the first day of April 1912, the following proposition is to be voted upon, to wit:

An Act to provide a Homestead Tax Land Fund for Crawford County, and make appropriations therefrom (for Highway Improvements).

The said act is hereto annexed and made part of this notice:

"An Act to provide a 'Homestead Tax Land Fund for Crawford County and to make appropriations therefrom."

Whereas, the county of Crawford is receiving funds from time to time arising from the sale of homestead tax lands, and

Whereas, the amount of such funds is uncertain and cannot be anticipated so as to form a safe item for the contingent fund or for any other county fund, the amount of which must be definite and reliable, and

Whereas, the expenditure of such funds requires special action by this board to determine to what purpose the same shall be appropriated, and

Whereas, the county has no bonded indebtedness or indebtedness of any fund and therefore has no need of a sinking fund and has provided for all the contingent expenses of the county for the coming fiscal year in the present tax levy, and

Whereas, this county is deeply interested in promoting the improvement of the roads in the various townships of this county, and

Whereas, the county has not adopted the "county road" system:

Now therefore the Board of Supervisors of Crawford County enact:

Section I.—That there be and there be created a "Homestead Tax Land Fund," to which shall be credited the county's portion of funds hereafter received by the county treasurer on account of the sale of homestead tax lands.

Section II.—Such fund is hereby devoted to the improvement of the public highways of this county to be hereinafter provided for.

Section III.—Whenever any township in the county of Crawford shall have built a mile or more of road corresponding with the roads described in section X of Chapter V of Act Number 283 of the Public Acts of 1909 entitled,

"An Act to revise, consolidate and add to laws relating to the establishment, opening, improvement, maintenance and use of the public highways and private roads, the condemnation of property and gravel, and the preserving of bridges, settling and protecting side trees, draining, cutting weeds and brush within this state, and providing for the election and defining the powers, duties and compensation of state, county, township and district highway officials."

Which roads shall have been approved and accepted by the State Highway Commissioner, then such township shall be entitled to draw from the Homestead Tax Land Fund for each mile and fraction thereof of such road the sum of seventy-five dollars per mile.

Section IV.—Whenever any township in the county of Crawford shall have built a mile of well-graded road which shall be grubbed, cleared of all stumps, stumps and stones, not less than twenty feet wide between side ditches and properly graded and crowned so as to shed water quickly and on which the steepest incline shall not exceed 6 per centum and said road shall have been approved and accepted by the county surveyor, then such township shall be entitled to draw from the Homestead Tax Land Fund for each mile and fraction thereof of such road the sum of seventy-five dollars per mile.

Section V.—Whenever any township shall contemplate building a mile or more of road provided for in Section 3 of this act and of applying for the appropriation from the Homestead Tax Land Fund, the township shall file with the county clerk an application giving the character of the road to be built and the location of the same and shall also file with the county clerk a copy of the survey and profile of the road filed with the State Highway department.

Section VI.—Whenever any township shall contemplate building a mile or more of graded road described in Section 4 of this act and of applying for the appropriation from the Homestead Tax Land Fund it shall file with the county clerk an application giving the character of the road to be built and the location of the same and shall cause a survey and profile of the road to be made which survey and profile shall first be approved by the county surveyor and filed in the office of the county clerk.

Section VII.—In case any claim is allowed and paid for graded road under Section 4 of this act and application and claim are afterwards made under section three of this act, such claim, if allowed, shall be paid at the amount allowed under section 3, less the amount previously paid under section 4 on the same road.

Section VIII.—No claim for an allotment from the Homestead Tax Land Fund shall be allowed to any township for over two miles of road under section 3 and three miles under section 4 of this act in any one year, nor for any road already completed.

Section IX.—Before any money shall be paid out of the Homestead Tax Land Fund the township authorities shall present its claim to the Board of Supervisors at the regular October Session thereof. Such claim shall be referred to a committee for investigation and report thereon, and said committee shall make such investigation as shall be deemed necessary and report thereon at the same session of the Board, if practicable.

Upon the coming in of such report the Board shall take such action on said claim as will assure to the township entitled thereto the prompt payment of its claim in full if there be sufficient money in the Homestead Tax Land Fund to pay in full all claims allowed. If there be not sufficient money in the fund to pay in full all claims allowed, then it shall be paid at such per cent of the full claim as the total amount of all similar claims allowed bears to the total amount of the Homestead Tax Land fund available for such purpose.

Section X.—Whenever the county shall have adopted the county road system as provided in Chapter 4 of Act No. 283 of the Public Acts of 1909 then this act shall become null and void except as to roads under construction for which Application for appropriation has been made.

Passed by the Board of Supervisors January 16th 1912. Signed by the governor January 20th 1912, with instruction to submit the same to the electors of Crawford County for approval. Dated this 9th day of March 1912.

THE BOARD OF SUPERVISORS OF CRAWFORD COUNTY.

By JOHN J. NUNDELL, County Clerk.

Rev. Fr. George B. O'Brien Dies Saturday Morning.

Taken seriously ill shortly after four o'clock Saturday morning, Rev. George B. O'Brien, a teacher in St. Joseph's seminary in Grand Rapids, died a few minutes later at Mercy Hospital, where he came to recuperate following his illness of last summer.

Death was due to tubercular trouble. At the time of his illness last summer his recovery was despaired of, but after several months' struggle he improved slowly. In August he was granted a leave of absence for one year by Bishop Henry Joseph Richter.

As a boy Rev. O'Brien attended St. Andrew's school in Grand Rapids and later studied at the seminary at Cincinnati. In June, 1910, he was graduated from the Le Grande seminary at Montreal, Quebec. During the same month he was ordained to the priesthood at St. Andrew's cathedral by Bishop Richter.

Following a brief vacation he was made a teacher at St. Joseph's seminary, where he taught five days every week, spending Saturday and Sunday at his parish at Holland. He continued these duties until he was seized with the serious illness last summer, which finally resulted in his death Saturday.

Rev. O'Brien was born at Lowell, Michigan, twenty-two years ago. At the age of six years he moved to Grand Rapids with his parents and, with the exception of the years spent in college, had lived here ever since.

The body of Rev. O'Brien was taken to Grand Rapids Saturday.

"ME-SMITH" IN THE NEWS.

Splendid Western Story Starts in Michigan's Greatest Daily March 6th.

"Me-Smith," a thrilling western story by Caroline Lockhart, will begin in The Detroit News, afternoon edition, Wednesday, March 6; morning edition, Thursday, March 7. This is one of the best novels of the great plains that has been written in many years and it will appeal to all classes of readers. A charming love story runs through the novel, and this will be particularly pleasing to the women. For the men, "Me-Smith," the bad man, stands out as a striking character as also does Ralston, the deputy sheriff and hero of the yarn.

Mexican Situation.

It would seem that the feeling of apprehension regarding the danger of American intervention in Mexico is even keener down there than it is here, in view of the semi-official threat that if intervention does take place, every American in Mexico would be assassinated. That's a bad threat, but think of the retribution which in time would overtake the assassins. However, there's no desire on the part of this country to get embroiled with Mexico, and if such a thing should happen, it would happen regardless of threats or fear of consequences.

A Work of Art.

The Farmer's Review, Chicago, Illinois, is putting out one of the prettiest calendars we have ever seen. Its title is, "The Bride." This handsome 1912 calendar is seven and one-half inches wide and three feet long and is lithographed in fourteen exquisite colors and gold. Words cannot begin to do justice to its remarkable beauty. A copy will be mailed to any address upon receipt of 10 cents in coin or stamps. Address The Farmers' Review, Chicago, Illinois.

Glorious News.

comes from Dr. J. T. Curtis, Dwight, Kan. He writes, "I not only have cured had cases of eczema in my patients with Electric Bitters, but also cured myself by them of the same disease. I feel sure they will benefit any case of eczema." This shows what thousands have proved, that Electric Bitters is a most effective blood purifier. It's an excellent remedy for eczema, tetter, salt rheum, neuralgia, boils and running sores. It stimulates liver, kidneys and bowels, expels poisons, helps digestion, builds up the strength. Price 50c. Satisfaction guaranteed by A. M. Lewis & Co.

The KITCHEN CABINET

His grandest of heroic deeds are those which are performed within four walls and in domestic privacy.

The old German inscription on a key, "If I rest, I rust!" is as true of people as of iron.

"AIDS FOR THE HOUSEWIFE."

When keeping bread warm to rise in winter, a slate stone made warm on which to set the pan will hasten the process.

Now that eggs are so scarce, an eggless cake will be welcome.

Eggless Fruitcake.—Take two cups of brown sugar, one cup of molasses, a pint of boiling coffee, a pound of fat salt pork chopped fine, a tablespoonful of soda, one teaspoonful of cloves, all-spice, ginger and a pound of currants, a half pound of shredded orange peel, lemon and citron, and a half pound of chopped nut meats. Over this pour the hot coffee and molasses and soda. Add flour to make stiff. Bake slowly two hours.

When roasting meat, parboil a few small, juicy turnips until nearly tender, then lay them in with the meat, and baste occasionally until well done.

Never try to boil when using the oven, as opening the stove will cool the oven. Parboiling in a hot frying pan will do when the better way is not available.

A fine cake mixer when one is making enough to go to the bother, is a small ice cream freezer can. Put in the ingredients and beat with the paddle by turning the crank.

German Mush.—Cook a ham or beef bone until the meat falls off. Salt the water and stir in oat meal, cook until well done, then turn out into greased pans to mold. Slice and fry.

To preserve brooms, dip them for three minutes in a pint of boiling soda every week. This cleanses them makes them more tough and pliable and they will wear longer.

A delicious accompaniment to feasted chicken is fried mush. Fry the mush before it gets cold. It will be crispier and sweeter than if it were molded before it is fried.

Beck's Maple.

The KITCHEN CABINET

It is not hardships that make men brave and women heroic. It is the ideas which they mix with their daily bread and butter.

A WORD TO THE COOK.

Do you have a well-defined plan for the meals of the day?

Do you try to balance the meals so that there is never an overabundance of any one food principle, like starchy foods, meats or sweets?

Do you plan your menus in regard to the individuals served? For example, the office worker and the out-of-door worker need a quite different menu, as does the growing child and the invalid.

Do you plan when you are making a custard to prepare enough to make a salad dressing, too? This is easily done by leaving out the sugar and flavoring until the custard is cooked, then add sugar and flavoring and you have a custard to serve as a sauce or a floating island, and to the remainder add salt, mustard and pepper and you have a salad dressing, with but the preparation of one.

Do you study the principles of cookery and enjoy your work, realizing that it is a dignified work, or do you call yourself a drudge? As a man thinketh in his heart, so is he.

When using cooking dishes if they are washed at once, not allowing them to stand, they will wash much easier and other work that follows will not be hindered.

Coffee is much improved, if not freshly ground, to put into the dry pot and shake over the fire until thoroughly hot.

When buying soap it is economy to get it in large quantities, as one gets more for the money, and soap that is stored and dried will last much longer.

It is a wonderful help in an emergency to have a few canned foods on hand, such as canned clams, to be made into a delicious chowder with a few minutes' work, or canned soups of different kinds are quickly prepared, and there is nothing more satisfying after a cold ride or for a late supper than a cup of steaming hot soup.

There is no bread, how well prepared, that tastes quite as good as home-made bread. To many housekeepers who are cook and housemaid, bread-making is a great burden, but with the advent of the bread-mixer, the disagreeable part of bread-making is eliminated. The bread is mixed at night, when the man of the house might turn the mixer for exercise, and in the morning it is all ready to mix again, and then rise in the loaves. If for no other reason than cleanliness, the bread-mixer pays for itself.

Beck's Maple.

A Victory of Principle over Politics

The state senate last Friday passed a presidential primary bill by a vote of 20 to 12, but the unconstitutional motion to give the bill immediate effect failed in a vote of 19 to 13.

Those votes explain the whole situation. They are concise summaries of all the facts.

The passage of this bill shows that Gov. Osborn could have passed the Lee bill in the regular session. The present senate and house are clearly in favor of the presidential primary.

The senate's action shows that the bill could have been passed in the regular session as it was in this, as a matter of principle, yet the senate would not vote to ignore the constitutional merely as a matter of gubernatorial politics.

If the governor had taken up the presidential primary on principle in the regular session he would have won. When he failed to do that he became responsible for the failure of Friday.

No one else is so much to blame as Gov. Osborn for the fact that we have no presidential primary this year. He says he believes in it, yet he did nothing to advance it until after his quarrel with Taft, after the elimination of La Follette, after the conference of the seven Third-Term governors in Chicago.

Therefore, in the special session, politics rather than principles seem to govern. Gov. Osborn's first bill, presented by Rep. Flowers, was full of political devices far from simple primary principles. This brought furious condemnation on the bill from some of the strongest champions of the presidential primary in the state. Gov. Osborn took the political sword, and in some measure perished by it.

The manifest politics in the whole plan explains the senate's refusal to give immediate effect to the measure. Everyone knew the constitution is against such action. Everyone knew that if the legislature ignored this constitutional prohibition now it would vitiate that clause in the constitution for all time.

The appropriation rider on the bill was a mere evasion.

The merits of the principle of the primary were never considered in such a meritless measure as the Flowers bill. Even the house had to beat the administration into submission and force the substitution of the simpler Ball bill. But by that time the real issue of pure politics had been drawn. And neither the politics of the state machine nor the politics of senators afraid of unscrupulous newspapers was sufficient to defeat the constitution. It is a final victory of the presidential primary principle, a victory of Senator Lee over Gov. Osborn. It is a final victory, also, of the people and the people's constitution over the combined strength of the state machine and the machine press. Detroit Journal.

ECZEMA

QUICKLY CURED WITH "ZEMO"

A Trial Treatment for 25c.

The makers of "ZEMO" the celebrated eczema and skin cure have placed on the market a trial treatment package consisting of a generous bottle of ZEMO, a trial cake of ZEMO SOAP and a 32-page booklet "How to Preserve the Skin." This entire package to be sold at 25c, so that everybody can test the true healing and cleansing properties of ZEMO. We have received a good supply of these trial-treatment packages and urge all those troubled with eczema, pimples, itching skin, or any other skin or scalp disease, to come here and get the ZEMO trial-treatment. We heartily endorse and recommend ZEMO and ZEMO SOAP to all persons suffering from any form of skin or scalp trouble. It is a clean, soothing and healing wash and a sweet antiseptic soap that does not glaze over the trouble like salves, powders and greasy lotions, but penetrates to the very root of this trouble. ZEMO stops the itching at once and opens the pores and draws out the poisonous accumulations on the surface of the skin, leaving it clean and healthy. Get a trial-treatment of ZEMO today—you'll find it the best 25c investment you ever made. A. Lewis & Co.'s drug store.

CAPT. ROALD AMUNDSEN

THE FRAM

TELLS HIS OWN STORY

Capt. Amundsen's Narrative of His Discovery of South Pole.

THREE DAYS AT GOAL

Makes a Modest Statement of Wonderful Exploit of Himself and Men.

AT EARTH'S END DEC. 14-17.

Makes Several Important Geographical Discoveries in Antarctic Continent—First Start for the Pole.

Was on September 8, 1911, With Eight Men.

BY ROALD AMUNDSEN.

(Copyright, 1912, by the New York Times Company. All rights reserved. Published by special arrangement.)

On the 8th of September, 1911, I left with eight men, eight sledges, and eight dogs, to start for the South Pole. The Fram was at the disposal of the expedition. The first day we went to the south, and the second day we went to the south, and the third day we went to the south.

The ground and the state of the barrier were of the best, and specially well adapted to driving with dogs. On February 15, we had, thus, traveled about 100 kilometers. The weight of the sledges was 300 kilos, and the number of dogs was six, for each sledge. The surface of the barrier was smooth and fine with no sastrugi. The crevasses were very local and few.

As no landmarks were to be seen, seven kilometers were marked with flags on the eastern and westerly directions. The ground and the state of the barrier were of the best, and specially well adapted to driving with dogs. On February 15, we had, thus, traveled about 100 kilometers. The weight of the sledges was 300 kilos, and the number of dogs was six, for each sledge. The surface of the barrier was smooth and fine with no sastrugi. The crevasses were very local and few.

The ground and the state of the barrier were of the best, and specially well adapted to driving with dogs. On February 15, we had, thus, traveled about 100 kilometers. our whole outfit, which on the depot trips was found to be too clumsy and solid for the smooth surface of the Barrier. Besides this, as much scientific work as possible was done, and some astonishing meteorological observations were taken.

Open Water All Winter.—There was very little snow, and there was open water close by throughout the winter. For the same reason higher temperature had been expected, but it remained very low.

In five months there were observed temperatures between minus 50 and 60 degrees Celsius (58 and 76 degrees below zero Fahrenheit), the lowest temperature on the 13th of August being minus 59 degrees Celsius.

On the 1st of August the temperature was minus 45 degrees Celsius, and there were six meters of wind. The mean temperature for the year was minus 20 degrees Celsius (14 below zero Fahrenheit).

There were no business at all. I came, but I observed only two moderate storms, and many excellent auroras australis in all directions.

The sanitary conditions were of the best all the winter, and when the sun returned, on the 24th of August, I met the men, who had been in the depot, to set about the task that had to be solved.

Already, the day before, we had brought our sledges to the starting place for our search toward the south. In the beginning of September the temperature rose to such an extent that there was no question of setting out then.

On the 8th of September, eight men, with seven sledges, eight dogs, and eight dogs, left the depot. The first day we went to the south, and the second day we went to the south, and the third day we went to the south.

The ground and the state of the barrier were of the best, and specially well adapted to driving with dogs. On February 15, we had, thus, traveled about 100 kilometers. The weight of the sledges was 300 kilos, and the number of dogs was six, for each sledge. The surface of the barrier was smooth and fine with no sastrugi. The crevasses were very local and few.

east at 86 degrees south latitude and 163 degrees west longitude, formed between the southeast mountain range running from South Victoria land and a range on the opposite side running in a southwesterly direction, probably a continuation of King Edward VII. land.

On the thirteenth we reached 81 degrees where we established a depot; on the sixteenth we were at 85 degrees, where, also, we made a depot. From our winter quarters, "Framheim," 75 degrees 38 minutes south latitude, we had been marching due south. On the seventeenth of November, at 85 degrees, we arrived at a place where the land and barrier were connected. This was done without any great difficulty. The barrier here rises in undulations to about 300 feet.

Some few high crevices indicated the limited boundary. Here we made our head depot, taking provisions for sixty days, on sledges and leaving thirty days' provisions on the spot.

The land under which we lay, and which we now had to attack, looked quite imposing. The nearest summit along the barrier had a height of from 2,000 to 3,000 feet, but several others, farther south, were 15,000 feet or more.

The next day we began to climb. The first part of it was an easy task—light steps and well-fitted mountain shoes. It did not take a long time, for our willing dogs worked their way up. Further on we met with some small but very steep glaciers. Here we had to harness 20 dogs to each sledge and take the four sledges in a single file.

It was difficult enough to use our skis. Some of the crevices forced us from time to time to make detours. The first day we climbed 2,000 feet, the next day mostly on some small glaciers, camping at a height of 4,500 feet. The third day we were obliged to go down on a mighty glacier, and then to climb another one, which was the coast mountains and the mountain range.

The next day began the longest part of our climb. Many detours had to be made in order to avoid sharp crevices and open crevices. These were apparently mostly filled up, as the glaciers in all probability had long ago stopped moving, but we had to be careful never to have any crevices, for the last day was the last day of our climb.

Our camp that night lay in a picturesque surroundings at a height of 10,000 feet. The glacier here was not so high as the one we had just crossed, but it was very high mountains, the Fridtjof Nansen and the Don Pedro Christensen.

From the bottom of the glacier, rose Mount Elvengard, a 6,000-foot high mountain. The glacier was not so high as the one we had just crossed, but it was very high mountains, the Fridtjof Nansen and the Don Pedro Christensen.

The ground and the state of the barrier were of the best, and specially well adapted to driving with dogs. On February 15, we had, thus, traveled about 100 kilometers. splendid view over the mountain top to the east.

See Many Great Peaks. There was "Helmer Nansen's summit," the most remarkable of them all, 12,000 feet high and covered with such broken glaciers that in all probability no foothold was to be found. "Oscar Wisting's," "Sverre Hassel's," and "Olav Hjeltnes's" mountains also lay before us beautifully illuminated in the rays of the bright sun.

In the distance only alternately to be viewed in the fog appeared from time to time "Mount Nelson" with its summits and peaks, about 15,000 feet high. We only saw the nearest surroundings.

It took us three days to surmount the Devil's glacier, always in misty weather. On the first of December we left this broken glacier, with holes and crevices without number, with its height of 9,100 feet. Before us, looking in the mist and snowdrift, like a frozen sea, appeared a light, sloping plateau filled with small hummocks.

Man and Dogs Fall in Sea. The walk over this frozen sea was not pleasant. The ground under us was quite hollow, and it sounded as though we were walking on the bottoms of empty barrels. As it was, a man fell through, with a couple of dogs. We could not use our skis on this polished ice. Sledges had the best of it.

This place got the name of the "Devil's Dancing Room." This part of our march was the most unpleasant. On December 6 we got our greatest height, according to the hypsometer and aneroid, 10,750 feet, at 87 degrees 40 minutes south.

On December 8 we came out of the bad weather. Once again the sun smiled down on us. Once again we could get an observation. Dead reckoning and observation were exactly alike—88 degrees, 53 minutes, 10 seconds south.

Before us lay an absolutely plain plateau, only here and there marked with a tiny sastrugi. In the afternoon we passed 83 degrees 23 minutes (83 minutes 23 minutes south was 88 degrees 25 minutes south). We camped and established a depot at 83 degrees 23 minutes south.

Up to this time the observations and dead reckoning agreed remarkably well, and we made out that we ought to be at the pole on December 14 in the afternoon.

That day was a beautiful one—a light breeze from the southwest, the temperature minus 23 Celsius (9.4 degrees below zero Fahrenheit) and the ground and sledging were perfect. The day went along as usual, and at three p. m. we made a halt.

According to our reckoning we had reached our destination. All of us gathered around the colors—a beautiful flag—all hands taking hold of it and planting it.

At this time the observations and dead reckoning agreed remarkably well, and we made out that we ought to be at the pole on December 14 in the afternoon.

GRAYLING, THURSDAY, MAR. 14

Politics Redivivus.

Sure, we all knew that the Colonel couldn't stay out of the fray. And it all adds to the gaiety of the situation.

Already the night of his hat in the ring has incited all the other political camps to intense activity.

Such a campaigning as is going on from all the campaign headquarters in Washington. Now the Colonel's voice will be added to the din. With so many candidates in the field on both sides it really looks as if it were a very open season for hunters in the Presidential preserves. And it is hinted that the woods are simply full of dark horses which will emerge at the first sign of a deadlock in either convention, ready to run around the bunch and get under the wire first. Some of the best guessers among the politically wise think, however, that no dark horse will win out in either convention.

THE FEDERAL office holders throughout the country have been given carte blanche to do as they please in the matter of activity in campaign matters. The Civil Service Commission has issued a statement disclaiming any right to say what the action of individuals should be in these matters and this good news has been carried home to every interested person in the nation. The result is that all of the patrons drawing public money from the treasury are likely to have, as well as express their preferences.

Correspondence

Maple Forest.

Mr. Parsons is very ill.

Mrs. Wm. Bigam was in Gaylord last week.

E. Wilkinson bought a new horse at Frederic.

Mrs. H. Feldhauser returned home Saturday.

Mr. and Mrs. Chalker visited at Murphy's Friday.

Miss Bessie spent a few days last week at her uncle's, A. Howse.

Misses Bessie and Bessie Malco called at R. Edmunds' Sunday.

Miss L. Cobb is expected back next month to attend to the spring work.

The Charron Boys finished lumbering on the Taylor place and returned home.

Mrs. Z. Hollingsworth is able to be about after a long and severe siege of pneumonia.

Jim Knappa has his ice house full and Charrons have commenced to draw their ice.

W. S. Chalker has sold his big team and is driving the colts—a handsome pair of three year olds.

Merrill Sherman is getting his wood machine ready to cut wood for Charrons and J. Slingerland.

Mrs. J. Malco and daughter Flora made business trips to West Branch and Gaylord Monday and Tuesday.

Little Miss Laura Knappa after her hard struggle with the whooping cough is getting along nicely again.

Camp at Blue Lake broke up this week and Wm. Feldhauser, who had been working there, has returned home.

Mrs. J. K. Bates is able to be up a very little. They are preparing for a sale of their farm and stock sometime next month.

Born to Mr. and Mrs. John Dunn on Sunday, March 10th, an eight pound daughter who will be known as Miss Josephine.

J. Anderson drove over to Archie Howse's Friday, but his horse broke loose and left for home leaving Mr. Anderson to walk back.

Mr. and Mrs. G. Marshall, who came to Maple Forest four years ago, have recently sold their property in Illinois and will make this their permanent home.

Mrs. C. Howse, Mr. and Mrs. Marvin Howse and baby, and Arthur spent Sunday at Malco's week ago. Miss Libby Malco returned home with them for several days visit.

Mrs. K. Knappa, Mr. and Mrs. J. E. Knappa and children, Mr. and Mrs. Z. Hollingsworth and son Bert, and Laurel London from Grayling, had dinner at G. Marshall's Sunday to remind him that the next day would be his sixty-second birthday. With all the family home, Mr. and Mrs. Earl Marshall and son Melvin and Mr. and Mrs. Robert Marshall from Illinois, the house was full and the occasion thoroughly enjoyed by all.

Lovell's Locals.

Deputy Sheriff Chas. Standaard was a business caller one day last week.

Miss Nola Lee spent the week end with Gwendolyn Chrysler at Grayling.

Charles Owen was in town on Monday. It was his first trip since his

recent illness and he says he is feeling quite well again.

Mr. and Mrs. E. Pierce spent a pleasant day at the Marsh home on Sunday last.

Mrs. William Marsh and daughter returned on Friday from a pleasant visit at Roscommon.

E. S. Houghton attended a special session of the board of supervisors in Grayling on Thursday.

Mrs. Campbell is confined to her bed with rheumatism of the heart. Dr. was called and reports her condition serious.

T. E. Douglas is having his auto overhauled and repaired. He's getting them ready for spring and the great May list.

Dr. Knapp was a business caller on Friday last. He reports all his patients doing nicely and we expect to see them out again soon.

B. F. Slingerland is at his old place in the store again after a few days absence. On Sunday he and his family enjoyed the day at the Sikora home at Dan J.

Mrs. Jos. Simms is very worried over the news of the serious illness of her mother, Mrs. John Bishop of Toronto, Canada. She has visited in Lovells several times and has many friends here who hope to hear of an improvement in her condition soon.

Frederic News.

Some fine weather.

An epidemic of tonsillitis seems to have a good hold of Frederic.

Dr. McDonald is in Detroit on business.

Heading mill has been in operation despite cold weather.

Mrs. L. McWhitty is now visiting friends and relatives at Belaire.

Our whooping cough patients seem to be on the gain. Let us all hope so.

G. S. and R. A. Barber are visiting friends and relatives at Belaire this week.

Mrs. John Malco and daughter Flora visited at the home of Mrs. C. S. Barber Monday.

Jay Lewis spent a few days up north and reports a fine catch and a very bad cold.

The system supper Saturday evening was a success. All report a good supper and a good time.

Mrs. Ed. Nichols and children of Bay City are visiting their parents and friends in our town.

Mrs. S. Soule has returned home after a visit at Mackinaw City with her daughter, Mrs. Griffin.

Mrs. Kniska and Mrs. Wing spent the afternoon Monday with Grandma King, also Miss Ethel Taylor.

The dance Saturday night at the opera house was certainly enjoyable. A good crowd and a good time. Everybody came again.

Charge of assault and battery against F. Leng by E. J. King was dismissed on account of no evidence. Judge Wilcox presiding.

A bouquet of roses was received by Mrs. C. S. Barber from her sister at Santa Ana, Cal., which makes us all wish it was time for roses to bloom in Frederic.

A party in our town received a letter from his friend, Wm. Lewis, now at Mt. Pleasant, N. M. He reports all doing fine and hopes to be with us again soon.

AuSable Valley Breezes.

Mrs. H. Feldhauser returned home Saturday.

Mrs. H. Schreiber was on the sick list one day last week.

Mrs. Cythain Stephan was a caller on Mrs. Louise Mosher Saturday.

Frank Severn and Will Christenson run the river Sunday; no ducks.

Johnnie Stephan and Dan Babitt took a two day's trip down stream. They bagged eight ducks between them.

Mr. Will Mosher and family and Emma and Clarence Feldhauser had dinner with H. Stephan and family Sunday. Wild ducks were served.

Joe Kraus and Newton Godard run the river Sunday. Joe reports seeing the drove of deer, but they had bagged no ducks when they passed this burg.

P. Mosher is hauling wood to camp Wawasum. They will move back there the middle of next month. They gave such good satisfaction last year that they were re-engaged on the close of last season.

One of the nimrods of the burg run the river Friday last. On the way down he made a pretty double with the shotgun on the wing, getting the rear duck with the first barrel and the leading duck with the second barrel. It had gotten a long distance away but the No. 1 shot used reached it.

D. R. M.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires any internal treatment whatever. This liniment is for sale by all dealers.

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets. Many have been permanently cured by their use. For sale by all dealers.

Beaver Creek Breezes.

Supervisor Hanna has gone to Roscommon.

Nemesius Nielsen went to Chicago last Saturday.

Mr. and Mrs. Moon were guests at Beech Forest farm Sunday.

Miss Elsie Mortenson has been spending a few days with Mrs. Maud Belmore.

W. Harris of Chicago visited his mother, Mrs. Harris, at the Hanna farm Sunday.

J. C. Felling had the misfortune to have his coat severely injured by running a piece of wood into its neck.

Mr. Baer was called to sew up the wound and it is reported as doing nicely.

Additional Local News

Order your coal of George Langevin. He sells the best coal that you can buy—that's St. Charles coal.

All donations for the fair are requested to be sent to the hall not later than one o'clock Friday, March 15.

For Sale—Good octave Organ for \$30, if taken within ten days. Can be seen at the residence of Geo. Hartman, near school house.

Buy White House coffee at Conliffe & Co.'s. Regular price one pound 35c, three pounds \$1.00. Special next Saturday—three pounds 99c.

Boys of time now to go to your good pressing again. Remember to soap water cleaning done here.

Happy Mike.

Next Sunday is St. Patrick's day, when everyone is supposed to pay their respects to the sons of this patriot. Saint. May their number never grow less, and their wits grow sharper, and victory crown the efforts in their struggle for political independence.

Republican caucus next Wednesday evening, March 20, at 8 o'clock standard time for nomination of supervisor, clerk, treasurer, highway commissioner, justice of the peace, full term overseer of highways and four constables, also to transact such other business that may come lawfully before the meeting.

By order of TOWNSHIP COMMITTEE.

Special "ZEMO" Offer.

No doubt you've heard or know of ZEMO, the popular and thorough skin and scalp cure—its fame has spread from ocean to ocean, and it has many friends in these parts. The makers appreciating that there are many who would like to test the curative qualities of ZEMO and ZEMO SOAP, have prepared a special trial package, which we offer at only 25c. It contains a generous bottle of ZEMO, a small cake of ZEMO SOAP, and a 32-page booklet, "How to Preserve the Skin." The purpose of this trial package is to win thousands, yes, hundreds of thousands of thousands of new users of ZEMO and ZEMO SOAP. If you are troubled with Eczema, Phimples, Itching Skin, Dandruff, or any other skin or scalp ailment, do not fail to avail yourself of this opportunity to test ZEMO. Get your trial package today at A. M. Lewis & Co.'s drug store.

We are indebted to O. J. Bell, of Meadowdale, Wash., for a copy of The Seattle Sunday Times. It was an anniversary number and contained accounts of the wonderful growth and development of this great seaport. This issue contained 200 pages, was beautifully illustrated and one of the finest editions that we have ever seen.

A cheerful countenance is a duty we owe our neighbors and how much more is it necessary in the home? Our friends can get out of our way if we are not good companions, but our family cannot. They are helpless victims, shut up in the same house with us. For the sake of the children, for the sake of the elders, for the sake of all humanity, let us cultivate a pleasant smile, a hearty laugh, and a habit of cheerfulness.

The M. C. club met at the home of Mr. and Mrs. Chas. Standaard last Monday night. The house was trimmed with decorations. Green, tully cards in the shape of potatoes were used. Mrs. Art Brady and Carl Morie won the first prizes and Mrs. Scott Loader and Mr. Rosier the consolation prizes. A splendid banquet was served by the host and hostess, and as usual, an enjoyable evening was spent.

We are in receipt of a communication from South Branch, requesting the publication of a short article. It is signed X. Y. Z., which is not sufficient to identify the writer, and the responsibility of the article would fall upon us, and we wouldn't care to assume 'the same.' Please sign your name to articles sent to us for publication. This need not imply that the signature will appear in print, but we must have it for our own safety or satisfaction.

Good reports keep coming from Detroit concerning Dr. Insley. His mind is clearing up nicely and he seems much like himself. He is fully aware that he has lost both feet, also that his arm is badly fractured and for a time was heart broken. His condition on the whole is much improved. Dr. Brooks says that Dr. Insley is getting along nicely in every way—legs, arms, and head, and says that he will be able to get home within a month.

Cheboygan High School basketball team defeated our high school team at Temple theatre last Friday night, by a score of 28 to 21. The game was quick and snappy throughout and gave the spectators plenty of amusement. The friendliness and fairness on the part of the teams gained for both sides hearty applause whenever a good play was made. Both teams showed good form except perhaps our team was a little wild in making the basket while the visitors in this were strong. After the game a dance was given in honor of the visitors.

WASHINGTON, March 12.—Need for better protection of the national forests against the ravages of fire was recognized by the house today, when an amendment to the agriculture appropriation bill proposed by republican leader Mann was adopted by which the amount to be used for fire protection was increased from \$275,000 to \$500,000. This action largely was influenced by a speech by Rep. Lord of Michigan, who related his experience in the 1911 forest fire in Michigan, which destroyed the towns of AuSable and Oscoda.

Grayling South Side.

Julius Gelese has moved in the house vacated by Samuel Jensen.

C. A. Carroll was in Bay City on business the latter part of last week.

Mr. and Mrs. Gilmore of Pinconning were over Sunday guests at the home of Chas. Branch.

Earl Madison, son of Rasmus, Madison, has gone to Big Rapids to begin a course at the Ferris Institute.

E. R. Clark and family and Ira Leonard and family ate oysters with Geo. W. Leonard last Saturday night.

Bert Knapp of Carlton, who has been visiting friends in Grayling for a week or ten days, returned home last Monday.

Mrs. Earl Penn has returned to her home at Pere Cheney after visiting her parents here. Mr. and Mrs. G. W. Leonard for several weeks.

Several of the neighbors and friends gathered at the home of E. R. Clark Sunday evening. All report a jolly good time.

Republican Caucus.

The Republican electors of Grayling township will meet in caucus at the town hall, Grayling at 8:00 standard time next Wednesday evening, March 20th.

At this time candidates for the following offices will be placed in nomination: Supervisor, clerk, treasurer, highway commissioner, justice of the peace, full term overseer of highways and four constables, also to transact such other business that may come lawfully before the meeting.

By order of TOWNSHIP COMMITTEE.

Special "ZEMO" Offer.

No doubt you've heard or know of ZEMO, the popular and thorough skin and scalp cure—its fame has spread from ocean to ocean, and it has many friends in these parts. The makers appreciating that there are many who would like to test the curative qualities of ZEMO and ZEMO SOAP, have prepared a special trial package, which we offer at only 25c. It contains a generous bottle of ZEMO, a small cake of ZEMO SOAP, and a 32-page booklet, "How to Preserve the Skin." The purpose of this trial package is to win thousands, yes, hundreds of thousands of thousands of new users of ZEMO and ZEMO SOAP. If you are troubled with Eczema, Phimples, Itching Skin, Dandruff, or any other skin or scalp ailment, do not fail to avail yourself of this opportunity to test ZEMO. Get your trial package today at A. M. Lewis & Co.'s drug store.

We are indebted to O. J. Bell, of Meadowdale, Wash., for a copy of The Seattle Sunday Times. It was an anniversary number and contained accounts of the wonderful growth and development of this great seaport. This issue contained 200 pages, was beautifully illustrated and one of the finest editions that we have ever seen.

A cheerful countenance is a duty we owe our neighbors and how much more is it necessary in the home? Our friends can get out of our way if we are not good companions, but our family cannot. They are helpless victims, shut up in the same house with us. For the sake of the children, for the sake of the elders, for the sake of all humanity, let us cultivate a pleasant smile, a hearty laugh, and a habit of cheerfulness.

DIET AND HEALTH HINTS

By DR. T. J. ALLEN
Food Specialist

BATTLES WON BY RIGHT FEEDING.

An army marches on its stomach. This is a well-established principle in warfare. A hungry man cannot fight long, and a general whose brain is clouded by auto-intoxication cannot conceive brilliant or wise movements.

Every nation considers carefully what ration will best support the man behind the gun—at least in war time—and some have won great victories by superior feeding, notably the Japanese, in the contest with Russia.

The Roman gladiators were fed on rye and wheat, and the modern athlete is very carefully fed by the scientific trainer. Only the average man who has the battle of life to fight gets no dietetic training.

Use "Sleepy Eye" the best bread
flour. Sold at Connine & Co's. for 80c
the sack. Money back if not sat-
isfactory.

The New York Herald claims that
W. H. Taft will be elected to nomina-
tion on the first ballot, giving Taft
593 votes and Roosevelt 273.

Why pay two prices for your meats
by having them charged? Do you want
to pay for the bad ones? Call at
Slade's where prices are right.

Mrs. Wm. McCullough has been
quite seriously ill for several weeks
and don't seem to improve. Her
friends are deeply concerned.

Alton Brott and family of Beaver
Creek and Mr. and Mrs. H. G. Bene-
dict of Grayling were guests of G. W.
Brott and wife at Lulu lake Sunday.

Slade saves you from 15 to 60 cents
on the dollar. Why not save that by
paying cash for your meats. I also
have butter, eggs and canned goods.

Oliver typewriter, nearly new and
in first class condition, for sale cheap
to the first person giving me the cash
for same. CARL PETERSON, mar14tf

We help our children most when we
help them to take an honest view of
themselves, and this we can never do
by flattering their too easily flattered
self-conceit.

Mr. and Mrs. M. Brenner attended a
wedding in Bay City last Sunday.
Mr. Brenner went from there to De-
troit on business. They both returned
Tuesday afternoon.

The satisfaction of good tailoring is
remembered long after the price is
forgotten. We guarantee satisfaction
and lasting qualities.
Feb. 1, 5 mo. A. E. HENDRICKSON.

Mr. John Olsen, who has been visit-
ing at the home of N. P. Olson and
others, left for his home in Denver.
He likes Grayling so well that he has
thoughts of returning and making his
home here.

Mrs. Peter Peterson, who was for-
merly Miss Ida Hammond and well
known to our people, after a critical
operation at Bay City hospital is im-
proving nicely and is expected to get
to her home within a week or two.

Good housekeeping has more to do
with domestic happiness than young
lovers dream of. We believe these
times need women whose most beau-
tiful work will be done inside their own
doors. Without good housekeeping,
the romance will soon go out of mar-
riage.

FOR SALE—Nine room house, barn
chicken coop and yard, between four
and five acres of land, waterworks,
windmill, plenty of shade. Also
about 35 acres of land adjoining.
Located opposite flooring factory.
Good reasons for selling. Telephone

FOR SALE—House and lot near
Kerry & Hanson Flooring Co's plant.
Six room house, good cellar, wood-
shed, good well. Cash or easy terms.
Phone No. 443.
Feb. 15-4w. JOHN J. HRATH.

FOR SALE—House that was damag-
ed by fire, and two lots, for cash or on
time with good payment down; also
several good building lots. For par-
ticulars write GLADYS HADLEY, HERR-
ICK, Fenton, Mich. mar14-2w

J. C. Burton has announced the
hatching of a brood of young chicks—
born last week Thursday, March 7th.
It must have kept "Old Biddy" more
than busy to keep the nest warm dur-
ing the recent cold days and nights.

Waldemar Jensen painted a curtain
sign for James H. Wingard's photo-
graph studio that is far above the
average work of this kind. A river
scene is painted in panel effect with
such perfectness that it would hustle
a good camera enthusiast to pick out
one that equals it. The painting is
most excellent and very appropriate
for a photographer.

Rev. J. Humphrey Fleming was
summoned to the bedside of his broth-
er, Rev. D. C. Fleming, of Charlotte.

This accounts for there being no
preaching service in the Presbyterian
church last Sunday. Mr. Fleming ex-
pects to be on duty again next Sun-
day and the Bradley orchestra have
agreed to furnish music for sure at
the evening service, March 17th.

"A Day at the County Fair." Direc-
tion of Ella L. Beers. Seventy-five
local characters. Under the aus-
pices of the Senior and Junior classes
of the Grayling high school. Owing
to the coming snow storm the fair will
be held Friday in the opera house,
Grayling, March 15th. The event of
the season. Special attractions: Pat-
rida De Patti, the songstress; Prof.
Vori-Smooth, Magician; Mlle. DeBrau-
ki, snake charmer; Murado, the wild
man; Harvey Tubb, the fat boy; mu-
sical specialties. Admission to all
features, 25c. Reserved seats, 35c.
Doors open at 7:30 p. m. Ascension at
8:15 p. m.

When the village of Grayling lost
the services of M. Brenner, as village
marshal and night watch, it lost a
faithful employee. Mr. Brenner was
given the non de plume of "Happy
Mike" which title he fittingly bore.
He was always happy, cheerful and
obliging. He had full sense of his
duty, and his cheerful personality did
not in the least interfere with his do-
ing his duty. An officer in uniform is
looked up to as a sort of information
bureau, and in this Mike certainly did
shine. It seemed a pleasure to him to
be able to be of assistance to the pub-
lic and he would oftentimes, as we
have heard remarked "run his legs
off" in order to be of assistance to a
friend or even a stranger. He knew
the time of arrival and departure of
every train and almost anything else
a person might care to know. His
was a hard job as he was responsible
for the safety of our stores and offices
from fire and burglary and for the
protection of our people. Mike was
ambitious and honest in the discharge
of his duty and some of those who
knew him best and had the most at-
tached themselves to him in their homes
with a feeling of security when Mr.
Brenner was on duty. Owing to the
poor health of his wife he was obliged
to give up this work and devote his
entire time to his business.

For the best cleaning, dyeing and
pressing, Happy Mike.

N. P. Olson was in Saginaw on
business Tuesday and Wednesday.

Banner rolled oats at Connine &
Co's 19c package six days in week.

Mrs. Robert Roblin returned from
several days visit with relatives in
Bay City, Monday.

Elmer Brott, of Battle Creek, has
arrived and will take up his residence
in the village. His family will follow
soon.

Telephone the Peoples Livery, No.
853 for first class rigs and accommo-
dations. Driver furnished whenever
desired. Peter-Jorgenson. mar7tf

WANTED—Representative for secret
service company. Experience un-
necessary. Address GEORGE A.
BEHN, 445 First National Bank Build-
ing, Chicago, Ill.

Notice to the Public: Mr. Elmer
Brott, a carpenter and contractor, has
located in Grayling and is prepared to
serve you in this line—both new and
repair work. Address him or phone
854. Mar-14-tf.

Village election was held last Mon-
day and thirty-eight votes cast.
There being but one ticket in the
field, little interest was taken. The
old council expect to meet tonight
and officially declare the election.

Dilettant Forestilling. Fredagen,
Marts 22nd, i opera huset, "Feriegas-
terne" Lyatspiti i akter af Histrup.
De sadvanlige gode gamle Folke-
danse, og et lille Forspil vil blive op-
fort til Fordel for Ungdomsforeningen
Hejmdal. Efter Forestillingen et par
timers dans. Entre, 25c. Reserveret
plads, 35c. Born, 15c. Reserveret
plads kan faas paa Olson's drug store.

Under the heading "Election No-
tice" on the first page, we republish
in full the Homestead Tax Land Fund
Act. This is the third time that this
has been published in full in this
paper and if you are a taxpayer or in-
terested in good roads, we trust that
you will read it. This will come up
for election April first and should re-
ceive the endorsement of every voter
in this county.

Economizes Butter, Flour, Eggs; makes the food more appetizing and wholesome

The only Baking Powder made from Royal Grape Cream of Tartar

THE KITCHEN CABINET

It is the best thing to take people out of their own worries is to go to work and find out how other folks' worries are getting on. —Mrs. Whitney.

BEWARE OF TOO MANY SWEETS.

Half the ill of life might be eliminated if our food was properly chosen, we are told, and during or just after the holidays many will suffer from so-called bilious attacks, which mean overworked livers. Sugar eating in the various forms of candy and cakes is responsible for bad livers, sick headaches, muddy skins and the "saw brown taste" in the mouth.

In the ordinary course of digestion starch foods reach the circulation as sugar. This is carried to the liver by the portal system and stored to be used by the body. If we ever eat such foods as potatoes, bread and sweets, we overcrowd the liver.

Children can easily cultivate an appetite for sweets, but if they never get the habit much suffering for all concerned is avoided.

Sweet fruits contain sugar that is thoroughly satisfying and wholesome, and little people may be easily taught to buy such things, instead of candy.

It is quite a remarkable fact that children who have been so reared that they have had little or no sweets are rarely apt, when reaching maturity, to care enough for such food to overindulge.

The errors in diet that are begun in childhood undermine the vitality, and in time the body is not able to expel the waste and ward off disease.

A child may be plump and the picture of health, and yet by a little overwork or exposure to disease, the improperly nourished body succumbs.

To be natural is to be well. All conditions of sickness are in some way penalties for the transgression of nature's laws. The most readable lesson we have is that "the sins of the fathers shall be visited upon the children," and still the evil goes on, through ignorance and carelessness.

Sweet fruits, such as dates, raisins, and ripe bananas contain sugar in its most acceptable form, and appetites deprived of such wholesome sweets will turn for gratification to those which are fermentable and injurious.

A child may be as easily started right as wrong, when it comes to feeding, for the mother is the architect, and how they build will tell in later years.

Three hundred thousand babies die in our land every year, more from ignorance in regard to diet than from any other cause.

Relieve Yourself

You can say goodbye to constipation with a clear conscience if you use Chamberlain's Tablets. Many have been permanently cured by their use. For sale by all dealers.

POULTRY

SOME MISTAKES IN POULTRY

Too Many Beginners Start on Too Large Scale—Most Common Error Is "Learning Too Fast."

It is well for the beginner to adopt the advice of men who are veterans in the service, in order that they may avoid many of the stumbling blocks, says the Poultry Journal.

Too many novices start on too large a scale. They are not content to begin at the bottom round of the ladder and gradually climb to the top. That is too slow for them. If blessed with sufficient capital they are pretty sure to start on a large scale. Without experience, is it any wonder that they do not succeed?

But this is not the only cause of failure with the beginner. The others might briefly be stated as having too much land; buildings too scattered; entailing too much unnecessary labor; the breed or breeds selected not being suitable for the purpose intended; house not built upon the sanitary plan; too much changing of the bill of fare; unmindful of small details; harboring too much unprofitable stock; carelessness in caring for all birds; relying too much on hired help, and learning too fast.

It is a waste of money to buy too much land. From 5 to 10 acres is sufficient for the largest kind of plant. A general mistake is the continual changing of the bill of fare. There should be one system of feeding and that regularly followed. The bill of fare should contain the greatest variety possible, but the system should not be changed. New articles of food should not be given to the exclusion of others until the fowls have had a chance to become acquainted with them. All additions or changes should be gradually made. If the fowls are doing well on what they are getting, no change should be made at all.

Probably the most common error is "learning too fast." It is a note worthy fact that, as a rule, by the close of the first year the beginner forms the opinion that he knows it all. Thirty years spent in the poultry yard has taught the writer that he has much yet to learn. There is always something new to be learned.

The wise man reads, studies, practices and investigates, thus daily adding to his store of knowledge.

SUCCESS IN TURKEY RAISING

Indispensable for One to Attempt to Rear Large Flocks, Unless Abundance of Space Available.

It is inadvisable for any one to attempt turkey raising unless they have abundance of space for these birds.

Gobbler and Hen.

more perhaps than any other denizens of the poultry yard, are unable to bear confinement. Sundry attempts have been made to rear them in limited runs, but as yet the effort has not met with success. Those who are favored with space will find turkey raising profitable, provided that they can secure attention being given to the birds.

COMBATING LICE IN CHICKS

Small Quantity of Olive Oil Rubbed on Fowls' Head Will Prove Quite Effective.

If fowls are healthy, the premises kept clean, and a dust bath or ashes provided, lice rarely get the upper hand, it being through the brood hens, transmitting them to the chickens, that most harm ensues. A hen with many or few lice on her when sitting transmits them to the chickens immediately they are hatched. They are to be found stationary on the chicken's head, above the beak and eyes, and in a few days when they get more plentiful, are to be found behind and on top of head and throat.

A simple and effective treatment adopted by the government station in New South Wales is to place a small quantity of olive oil in a saucer, and the day after hatching dip the finger in the oil and thoroughly rub it into the fluff of the chicken's head and under the throat. This will kill the lice if present and if repeated the second or third day there will be little fear of any escaping. When a week or ten days old the chickens should be examined again and if any of the vermin are found at this age a little kerosene can be added to the olive oil. It is to be annointed all chickens with the oil immediately after they are hatched, such being a sure preventive of the scourge.

Care of Poultry Runs.

Plowing and liming the poultry runs purifies the soil.

Children are much more likely to contract the contagious diseases when they have crows. Whooping cough, diphtheria, scarlet fever and consumption are diseases that are often contracted when the child has a cold. That is why all medical authorities say beware of crows. For the quick cure of crows you will find nothing better than Chamberlain's Cough Remedy. It can always be depended upon and is pleasant and safe to take. For sale by all dealers.

"PICKLE" THE TIMBER

ENGINEERS SEE MEANS OF ADDING LIFE TO TIES.

Their Possible Preservation for Increased Usefulness Is Suggested—Scheme Is at Least to Be Given a Trial.

A new method of solving one of the most vexing problems faced by the railroads, that of finding a means of increasing the life of the timber used for their ties and piling so as to offset as far as possible the increase in their cost and the rapid increase in the demand for lumber for railroad purposes, has been discovered by western railroad engineers.

The preserving of ties and piling by "pickling" in Great Salt Lake may become an important industry, if the experiments now being worked out prove as successful as they have thus far given indications.

Ten thousand railroads ties that have been "pickling" in the salt lake for the last three years have just been removed from that body of highly mineralized water and are now being transported to Hazen, Nev., there to be given a trial on the new Hazen cutoff of the Southern Pacific. "Pickling" ties in the lake is by no means a new experiment on the part of the railroad company, but the preserving quality of the lake's brine has not recently been discovered to be sufficiently great as to justify its possible use on a large scale.

There are ties on the old Promontory line of the Central Pacific railroad, which were placed there forty years ago and have not decayed, proving the preservative qualities of the salt formation in which they lay for years before being placed in the roadbed. Piling is also being preserved in the lake, as excellent results have been obtained by the piling in the great trestle across the lake, which since the day it was first placed in the first part of the last century has shown no deterioration. Through the genius of E. H. Harriman in building the cutoff at a cost of \$10,000,000, nearly 100 miles in the route to the coast has been saved to the road by the lake. If it can be used on a large scale as a substitute for the costly creosote and chloride of zinc preserving processes, which nearly all roads have employed to a great extent, it may mean out that the lake will be of even greater service.

The ties that have just been removed will be subjected to a hard test in the alkali soils of Nevada. The "pickling" process has caused them to be heavily impregnated with salt and they act as a "ground" for the electric current in the block signal circuits. This fact makes them unfit for use on the main line of the road over which the block signals play an important part, but there are many miles of track in which they may be safely used.

Tramps and the Railroads.

Writers who have studied the problem agree that tramps could not exist in the present numbers without the railroads. They afford a means for tramps to get from place to place. From time to time the railroads have succeeded in expelling the cooperation of these communities in punishing tramps with very good results, but instances of this sort on the part of municipalities have been too sporadic to accomplish any permanent good.

The vagrant problem has been solved in other countries notably in Switzerland, by establishing labor colonies, some for forced and some for voluntary labor. If the tramp is a confirmed loafer who does not want to earn his livelihood he is sent to one of the former, while if he is honestly seeking employment without success he is sent to one of the latter institutions, where he is paid wages until other work can be found for him. A bill providing for a farm of this nature was recently passed by the New York state legislature. Like bills have been introduced in four other states.

Daily Earnings of a Locomotive.

A writer in the Railway and Engineering Review recently gave the interesting results of a computation of the average daily earning capacity of the American locomotive. The estimate took account of time spent in the repair shop, increased cost of repairs and renewals and the cost of fuel, water and the engine crew. The average earnings per locomotive per day in the east are \$124.84, and on the western roads, \$130.84. The highest earnings in the west are those of the Santa Fe locomotives, which work out of \$149.53 per day. The highest earnings in the east are on the Central Railroad of New Jersey, where the average is \$147.06 per day.

Favor Overhead System.

After seven years of study, a commission appointed by the Swiss republic to investigate various methods of electrification has decided to recommend the overhead rather than the third rail system for the Swiss National railways. There will be 1,830 miles of railroad in the Swiss system, and it recommends that a single-phase alternating current be used at a pressure of 15,000 volts. The cost of the entire system will be about \$15,000,000.—Scientific American.

You Judge a Man Not by What He Promises to Do, but by What He Has Done.

That is the only true test. Chamberlain's Cough Remedy judged by this standard has no superior. People everywhere speak of it in the highest terms of praise. For sale by all dealers.

Many sufferers from rheumatism have been surprised and delighted with the prompt relief afforded by applying Chamberlain's Liniment. Not one case of rheumatism in ten requires any internal treatment whatever. This liniment is for sale by all dealers.

To Mothers—And Others.

You can use Bucklin's Arnica Salve to cure children of eczema, rashes, eruptions, chafes, and other skin troubles, as well as their accidents, injuries, cuts, burns, bruises, etc., with perfect safety. Nothing else heals so quickly. For boils, ulcers, old running or fever sores or piles it has no equal. 25 cents at A. M. Lewis & Co.

Real Game of Life.

The game of life does not consist in holding a good hand, but in playing a bad one to win with good companions.

To the Public.

I wish to inform all that I am now ready to take orders for Nursery Stock for spring delivery, with information from the company to give the best of satisfaction from the largest house in the world, with 1200 acres under cultivation for nursery stock, to be delivered in April. All stock is warranted and satisfaction guaranteed.

JOHN H. TOBIN.

Chancery Notice.

STATE OF MICHIGAN
In the Circuit Court for the County of Crawford
In Chancery.
Matthew C. Grier, Complainant
vs.
Andrew H. Johnson, Minnie Johnson, William A. Gray, B. D. Templeton, and W. F. Couch, Defendants.

In pursuance of a decree of the circuit court for the county of Crawford, in Chancery, made and entered on the 26th day of February A. D. 1912 in the above entitled cause, I, the undersigned, a circuit court commissioner of the county of Crawford, shall sell at public auction, to the highest bidder at the front door of the court house in the village of Grayling in said county of Crawford, on the 26th day of April, A. D. 1912 at ten o'clock in the forenoon of that day, all those certain lands and premises, situate, and being in the county of Crawford and state of Michigan and known and described as the East half of the East half and the Northwest quarter of the Northeast quarter of section three in township twenty six, north of range three west, and the East half of the East half of the Northwest quarter and the Southwest quarter of section twenty-three in Township twenty-seven, North of Range Three west.

Mortgage Sale.

Whereas, default has been made in the payment of the money secured by a mortgage dated the twentieth day of November 1909, executed by A. B. Ginn and Blanche M. Ginn, his wife, of Idaville, Indiana, to Wm. F. Johnston, of Roscommon, Michigan, which said mortgage was recorded in the office of the register of deeds of the County of Crawford, in liber G of mortgages, on pages 617, 618 and 619, on the sixth day of December 1909, at 2 o'clock P. M. And whereas, the amount claimed to be due on said mortgage at the date of this notice is the sum of one thousand seven hundred nine and fifty nine one hundred dollars (\$1,709.59) of principal, taxes and interest, and the further sum of twenty five dollars as an attorney's fee, stipulated for in said mortgage, and which is the whole amount claimed to be unpaid on said mortgage, and no suit or proceeding having been instituted at law to recover the debt now remaining secured by said mortgage, or any part thereof, whereby the power of sale contained in said mortgage has become operative.

Now, therefore, notice is hereby given that by virtue of the said power of sale, and in pursuance of the statute in such case made and provided, the said mortgage will be foreclosed by a sale of the premises therein described at public auction to the highest bidder at the front door of the court house in the city of Grayling in said county of Crawford, on the twenty-ninth day of March next, at one o'clock in the afternoon of that day, which said premises are described in the power of sale, follows, to wit: The southeast quarter of section eight (8) town twenty-five (25) north, range two (2) west, containing one hundred sixty (160) acres of land, more or less, according to the government survey thereof.

Dated December 26th, 1911.

WM. F. JOHNSTON, Mortgagee.

HIRAM R. SMITH, Attorney.

Business address: Roscommon, Mich. dec28-13w
